Overall Length:

40.000 inches

Overall Height:

2.000 inches

Overall Width:

2.000 inches

Attachment Method:

Threaded

Usage Design:

Aircraft engine

Special Features:

Tool attaches to front end of front duct while pwa56637 (sling 1730-01-465-5816) is attached to rear while using a hoist to lift and rotate fan ducts from horizontal position on rails to vertical position rear down with externals and accessories installed; sling, handling

Material:

Steel

Material:

Steel

Reference Data And Literature:

Serd 9517

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30600
