Overall Length:

50.000 inches

Overall Height:

7.000 inches

Overall Width:

22.000 inches

End Application:

Special gse application

Hoisting Apparatus Attaching Facility:

One centrally located eye-plate, two box tubing cross beams each containing one tee bracket, two pivoting hoist rings, and two snap rings

Product Name:

Beam, hoisting

Special Features:

Ca special handling device capable of interfacing with either a single ca-279/m medium altitude sensor or a single ca-279/h high altitude sensor. The heavier sensor weighs approximately 400 pounds

Supplementary Features:

Weight - 35 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T215-e
