Attachment Method:

Slip on collar

Overall Diameter:

4.000 inches

Usage Design:

Etf40b gas turbine engine

Special Features:

Consists of cap (1.38-1.41 inch high) connected to swivel hoist ring; used for maintenance of landing craft engine

Material:

Steel, type 4310, ams 8415

Material:

Steel, type 4310, ams 8415

Surface Treatment:

Oxide

Supplementary Features:

Drawing calls this: lifting tool, lp turbine stub shaft

Surface Treatment:

Black oxide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
