Attachment Method:

Bolted plate

End Application:

Etf40b gas turbine engine

Usage Design:

Compressor top casing

Special Features:

Consists of anchor shackle at top of metal plate from which 2 inch diameter x 8.50 in. Pipe angles down and in 90 degrees elbow to which mounting plate is attached

Material:

Aluminum alloy, 6061

Material:

Aluminum alloy 6061

Surface Treatment:

Anodize

Supplementary Features:

Drawing calls this: lifting tool, top casing

Surface Treatment:

Anodized

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30600
