Fabrication Method:

Molded

Major Diameter:

4.422 inches

Thickness:

0.188 inches

Minor Diameter:

3.016 inches

Lining Style:

Clutch disk

Surface Condition And Location:

Both sides ground

Special Features:

The current approved source 83299 has indicated their p/n contained asbestos prior to 1984. They continue to manufacture the same p/n without asbestos material after 1984

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
