End Application:

Concrete paving and water distribution equipment

Prime Mover Type:

Hydraulic motor

Operation Method:

Powered

Special Features:

Khydraulic powered, flange type drum partially enclosed, steel housing w/ pressure relief plug, equipped w/automatic brake and free spooling release, 8000.0lb safe load rating, 5000.0 lb lifting capacity

Fsc Application Data:

Auger, earth, skid mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02800
