Fabrication Method:

Folded and compressed

Width:

4.000 inches

Thickness:

0.250 inches

Hole Arrangement Style:

Double even

Friction Lining Material:

Asbestos composition

Lining Style:

Segment plain

Arc Length:

18.750 inches

Minor Radius:

11.750 inches

Application Type:

Dry

Hole Type And Quantity:

10 thru-hole

Features Provided:

Flexible friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
