Fabrication Method:

Molded

Width:

2.250 inches

Overall Length:

9.938 inches

Thickness:

0.250 inches

Hole Arrangement Style:

Indefinite

Friction Lining Material:

Any acceptable

Lining Style:

Rectangular block plain

Application Type:

Dry

Hole Type And Quantity:

6 counterbored

Features Provided:

Rigid friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
