Chain Type:

Roller link

Operation Method:

Hand

Mechanical Advantage Method:

Lever

Braking Method:

Electric

Hook Quantity:

1

Load Element Quantity Per Hook:

2

Suspension Mounting Method:

Hook

Raised Position Distance Between Suspension Hook And Load Hook Bearing Surface:

19.000 inches

Maximum Load Rating:

6000.0 pounds

Mounting Position:

Any acceptable

Special Features:

57.000 in. H of lift; convertible to one load chain w/load capacity of 3000.0 pounds and 10.0 ft. @h of lift; hooks w/safety latches; maximum handle lg 24.000 in. Pull 126.0 pounds; free spooling feature; o/a @weight 48.0 pounds

Specification Or Standard:

1 style and 1 class or 2 class and h type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02800
