Chain Type:

Proof coil

Operation Method:

Hand

Mechanical Advantage Method:

Spur gear

Braking Method:

Electric

Hook Quantity:

1

Load Element Quantity Per Hook:

4

Suspension Mounting Method:

Hook

Raised Position Distance Between Suspension Hook And Load Hook Bearing Surface:

54.000 inches

Maximum Load Rating:

20000.0 pounds

Mounting Position:

Any acceptable

Special Features:

16.0 ft. H of lift; hooks w/safety latches; weight @651.0 pounds

Specification Or Standard:

1 class and c type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02800
