| Fabrication Method:                |
|------------------------------------|
| Molded                             |
| Width:                             |
| 4.000 inches                       |
| Thickness:                         |
| 0.500 inches                       |
| Hole Arrangement Style:            |
| Double even                        |
| Strengthening Feature:             |
| Internally molded-in reinforcement |
| Friction Lining Material:          |
| Asbestos composition               |
| Lining Style:                      |
| Segment plain                      |
| Arc Length:                        |
| 104.094 inches                     |
| Minor Radius:                      |
| 21.000 inches                      |
| Application Type:                  |
| Dry                                |
| Hole Type And Quantity:            |
| 108 counterbored                   |
| Features Provided:                 |
| Rigid friction lining              |
| Attachment Method:                 |
| Riveted                            |
| Shelf Life:                        |
| N/a                                |
| Unit Of Measure:                   |
|                                    |
| Demilitarization:                  |
| No                                 |
| Fiig:                              |
| A230a0                             |
|                                    |
