Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3950-00-321-6898

Fabrication Method:
Molded
Width:
4.000 inches
Thickness:
0.250 inches
Hole Arrangement Style:
Double even
Friction Lining Material:
Asbestos composition
Lining Style:
Segment plain
Arc Length:
5.500 inches
Minor Radius:
11.750 inches
Application Type:
Dry
Hole Type And Quantity:
4 thru-hole
Features Provided:
Flexible friction lining
Surface Condition And Location:
One side ground
Attachment Method:
Riveted
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A230a0
