Fabrication Method:

Woven

Width:

5.875 inches

Thickness:

0.750 inches

Hole Arrangement Style:

Indefinite

Strengthening Feature:

Interwoven wire

Friction Lining Material:

Asbestos composition

Lining Style:

Segment plain

Arc Length:

9.708 inches

Minor Radius:

30.062 inches

Application Type:

Dry

Hole Type And Quantity:

6 counterbored

Features Provided:

Rigid friction lining

Surface Condition And Location:

One side ground

Attachment Method:

Riveted

Special Features:

18.5 degrees segment lg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
