Friction Lining - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3950-00-757-7370

Fabrication Method:
Woven
Width:
5.875 inches
Thickness:
0.750 inches
Hole Arrangement Style:
Indefinite
Strengthening Feature:
Interwoven wire
Friction Lining Material:
Asbestos composition
Lining Style:
Segment plain
Arc Length:
9.708 inches
Minor Radius:
30.062 inches
Application Type:
Dry
Hole Type And Quantity:
6 counterbored
Features Provided:
Rigid friction lining
Surface Condition And Location:
One side ground
Attachment Method:
Riveted
Special Features:
18.5 degrees segment lg
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A230a0
