Fabrication Method:

Woven

Width:

10.000 inches

Overall Length:

103.000 inches

Thickness:

0.750 inches

Hole Arrangement Style:

Indefinite

Strengthening Feature:

Interwoven wire

Lining Style:

Rectangular block plain

Application Type:

Dry

Features Provided:

Flexible friction lining

Attachment Method:

Riveted

Supplementary Features:

This item has been reviewed for asbestos material. The current approved sources 94878 have indicated thier part number contained asbestos prior to 8 4. They continue to manufacture the same part number without asbestos material after 1984

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
