Fabrication Method:

Molded

Width:

6.000 inches

Thickness:

0.500 inches

Strengthening Feature:

Internally molded-in reinforcement

End Application:

Capstan-windless assembly onboard 378' whec coast guard vessels

Friction Lining Material:

Asbestos composition

Lining Style:

Segment plain

Arc Length:

57.000 inches

Minor Radius:

17.818 inches

Cubic Measure:

1.0000 cubic feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
