Prime Mover Quantity:

1

Current Type:

Ac

Environmental Protection:

Any acceptable

Chain Type:

Roller link

Prime Mover Type:

Electric motor

Inclosure Type:

Any acceptable

Duty Cycle:

Intermittent

Operation Method:

Power

Hook Quantity:

1

Load Element Quantity Per Hook:

1

Power Requirement Rating:

60.0 watts

Suspension Mounting Method:

Hook

Raised Position Distance Between Suspension Hook And Load Hook Bearing Surface:

120.000 inches

Chain Material Diameter:

0.750 inches

Mounting Position:

Any acceptable

Cooling Method:

Any acceptable

Voltage In Volts:

120.0

Phase:

Three

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02800
