Operation Method:

Hand

Braking Method:

Manual

Hook Quantity:

1

Load Element Quantity Per Hook:

1

Suspension Mounting Method:

Hook

Raised Position Distance Between Suspension Hook And Load Hook Bearing Surface:

19.500 inches

Maximum Load Rating:

4000.0 pounds

Mounting Position:

Any acceptable

Special Features:

Lh model, 2 ton 8ft.Lift, 6ft.Drop chain; used on navy weapon system code mj, military sealift command (msc) equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02800
