Overall Length:

2.500 inches

Overall Height:

1.000 inches

Overall Width:

0.420 inches

End Application:

Weapons code atf, aircraft (ac-130a, ac-130h, mc-130h, ec-130e, hc-130)

Product Name:

Shear block

Special Features:

Hfemale shear block which is heli-arc welded to body of instrument transit case; has vertical opening 0.29" deep to mate with male shear block p/n 6-1027-1m on case cover to prevent cover from shifting

Material:

Aluminum alloy

Surface Treatment:

Enamel

General Description:

Surface treatment urethane enamel no. 26307 per mil-c-83286

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
