Overall Length:

1.700 inches

Overall Height:

0.220 inches

Overall Width:

1.300 inches

End Application:

Weapons code atf, aircraft (ac-130a, ac-130h, mc-130h, ec-130e, hc-130)

Product Name:

Shear block

Special Features:

Male shear block which is heli-arc welded to cover of instrument transit case; mates with female shear block p/n 6-1027-1f on case body to prevent cover from shifting

Material:

Aluminum alloy

Surface Treatment:

Enamel

General Description:

Surface treatment urethane enamel no. 26307 per mil-c-83286

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
