Prime Mover Quantity:

1

Power Drive Operating Pressure:

2500.0 pounds per square inch gage

End Application:

Used aboard 378 ft whec fram coast guard vessels

Prime Mover Type:

Hydraulic motor

Operation Method:

Powered

Special Features:

Winch, constant tension; reducer gear ratio: 40 to 1; start up torque 1500 in/lb; maximum drive torque 4000 in/lb; vane motor type: rotary;
brake operation: hydraulic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02800
