Overall Length:

11.910 inches

Overall Height:

28.000 inches

Overall Width:

20.000 inches

End Application:

Navy weapons code ja, nimitz class cvn

Product Name:

Weapons elevator hybrid relay master control station

Material:

Steel and stainless steel and aluminum and plastic and rubber synthetic and copper and copper alloy

Surface Treatment:

Paint and anodize

General Description:

Master control station assembly for hybrid relay weapons elevator control system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
