Prime Mover Quantity:

1

Power Drive Operating Pressure:

90.0 pounds per square inch gage

Prime Mover Type:

Pneumatic motor

Operation Method:

Powered

Drum Flange To Flange Distance And Location:

12.250 inches first drum

Travel Rate Per Minute:

34.5 feet

Braking Method:

Mechanical

Clutch Type:

Air operated

Drum Surface Design:

Plain

Transmission Type:

Automatic

Cooling Method:

Any acceptable

Product Name:

Winch, liftstar 1320 lbs

Special Features:

7 ft. Remote pilot pendant throttle hose; 12.250 in. Long drum; planetary gears; automatic disc brake with lack of air pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02800
