Current Type:

Dc

Prime Mover Type:

Electric motor

Operation Method:

Powered

Load Limit At Selected Speed And Drum Location:

4100.0 kilograms single speed first drum

Braking Method:

Mechanical

Product Name:

Self-recovery winch

Voltage In Volts:

24.0

Special Features:

Roller fairlead; 1.6kw motor; remote control swith; lg. 528.93mm; height 252.5 mm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02800
