Overall Length:

44.000 inches

Overall Width:

40.000 inches

Assembly Method:

Nailed

Face Type:

Single

Face Construction:

Slatted

Aircraft Rail System Mating Lip:

Not included

Platform Side Design:

Overhanging

Platformheight:

5.375 inches

Special Features:

Modified mil-p-15011, st1, ty i, cl1, by length and attached plywood dunnage to deck. Used for 105mm and 120mm tank ammunition.

Material:

Wood

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T160-b
