Overall Length:

600.000 feet

Diameter:

0.312 inches rope and 0.344 inches rope

End Application:

Marine/cables

Lay Method:

Right regular all layers

Breaking Strength:

2260.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Straight

Material:

Copper alloy strand

Style Designator:

6 x 12

Specification Or Standard:

3 type and 2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
