Overall Length:

600.000 feet

Diameter:

1.625 inches rope and 1.719 inches rope

End Application:

Marine/cables

Lay Method:

Right regular all layers

Breaking Strength:

115440.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Straight

Material:

Steel improved plow strand

Surface Treatment:

Zinc

Style Designator:

6 x 12

Specification Or Standard:

3 type and 2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A082a0
