Diameter:

1.000 inches rope

Lay Method:

Right regular all layers

Breaking Strength:

81500.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Straight or preformed

Material:

Steel improved plow strand

Style Designator:

6 x 19

Specification Or Standard:

Xxiii type

Departure From Cited Document:

As modified by rope style

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A082a0
