Diameter:

0.750 inches rope

Lay Method:

Right regular all layers

Breaking Strength:

36300.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Straight or preformed

Material:

Steel plow strand

Surface Treatment:

Zinc

Style Designator:

6 x 19

Specification Or Standard:

Xx type

Departure From Cited Document:

As modified by rope style

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
