Overall Length:

1000.000 feet

Diameter:

0.375 inches rope

Lay Method:

Right regular all layers

Breaking Strength:

14400.000 pounds

Core Construction:

Wire

Prefabrication Form:

Preformed

Special Features:

Strand covering material polyvinyl chloride

Material:

Steel strand

Material Specification:

Mil-w-1511 military specification single material response strand

Surface Treatment:

Zinc strand

Surface Treatment Specification:

Mil-w-1511 military specification single treatment response strand

Style Designator:

7 x 19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0

Mil-std (military Standard):

Mil-w-1511 spec.
