Diameter:

0.312 inches rope

Lay Method:

Right regular all layers

Breaking Strength:

2000.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Preformed

Special Features:

Lubricated fiber center

Material:

Steel improved plow strand

Style Designator:

6 x 31

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A082a0
