Diameter:

0.375 inches rope

Lay Method:

Right regular all layers

Breaking Strength:

5914.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Straight

Material:

Steel improved plow strand

Surface Treatment:

Zinc

Style Designator:

6 x 42

Specification Or Standard:

lii type and 3 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A082a0
