Overall Length:

35.000 feet

Diameter:

0.188 inches rope and 0.206 inches rope

Lay Method:

Right regular all layers

Breaking Strength:

3700.000 pounds

Core Construction:

Wire

Prefabrication Form:

Preformed

Material:

Stainless steel core

Material Specification:

Mil-w-83420 military specification single material response core

Style Designator:

7 x 19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0

Mil-std (military Standard):

Mil-w-83420 spec.
