Overall Length:

15.000 feet

Diameter:

1.125 inches rope

Lay Method:

Right regular all layers

Attachment Style:

Closed socket 1st intermediate attachment

End Type:

Terminal attachment both ends

Breaking Strength:

113000.000 pounds

Core Construction:

Fiber

Prefabrication Form:

Preformed

Special Features:

Prime per mil-p-8585 and enamel od per tt-e-529

Material:

Steel improved plow wire rope

Surface Treatment:

Zinc wire rope and chromate wire rope

Surface Treatment Specification:

Qq-z-325, type 2 cl 2 federal specification single treatment response wire rope

Style Designator:

6 x 19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
