Overall Length:

1.408 feet

Diameter:

0.094 inches rope

Lay Method:

Right regular all layers

Attachment Style:

Swaging terminal terminal attachment second end

End Type:

Terminal attachment both ends

Breaking Strength:

920.000 pounds

Core Construction:

Wire

Prefabrication Form:

Preformed

Material:

Steel wire rope

Material Specification:

Mil-w-83420 military specification single material response wire rope

Surface Treatment:

Passivate all attachments

Style Designator:

7 x 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0

Mil-std (military Standard):

Mil-w-83420 spec.
