**Overall Length:**

1.167 feet

**Diameter:**

0.062 inches rope and 0.072 inches rope

**Lay Method:**

Right regular all layers

**Breaking Strength:**

480.000 pounds

**Core Construction:**

Wire

**Prefabrication Form:**

Preformed

**Material:**

Steel core

**Material Specification:**

Mil-w-83420, type 1, comp a military specification single material response core

**Surface Treatment:**

Zinc strand or tin strand or zinc strand and tin strand

**Style Designator:**

7 x 7

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A082a0

**Mil-std (military Standard):**

Mil-w-83420 spec.
