End Application:

Rope, wire

Core Construction:

Fiber

Product Name:

Wire rope

Special Features:

Wire rope and strand shall be made of carbon steel, corrosion-resistant steel or phosphor bronze

Material:

Stainless steel or copper alloy wire rope

Surface Treatment:

Zinc wire

Special Test Features:

Mechanical properties for wire in ropes and strands shall be as specified in astm a1023/a1023m, except for filler wires, non-round wires, wires in wire strand cores and wires in iwrc's

Style Designator:

6 x 37

Supplementary Features:

Phosphor bronze iaw astm b139/b139m, corrosion-resistant steel iaw sae air4127

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
