**End Application:**

Rope, wire

**Core Construction:**

Fiber

**Product Name:**

Wire rope

**Special Features:**

Wire rope and strand shall be made of carbon steel, corrosion-resistant steel or phosphor bronze

**Material:**

Stainless steel or copper alloy wire rope

**Surface Treatment:**

Zinc wire

**Special Test Features:**

Mechanical properties for wire in ropes and strands shall be as specified in astm a1023/a1023m, except for filler wires, non-round wires, wires in wire strand cores and wires in iwrc's

**Style Designator:**

6 x 37

**Supplementary Features:**

Phosphor bronze iaw astm b139/b139m, corrosion-resistant steel iaw sae air4127

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A082a0
