Overall Length:

120.000 feet

Diameter:

0.625 inches rope

End Application:

Davit arm part number 80708 onboard 378 ft whec coast guard vessels

Lay Method:

Right regular all layers

Breaking Strength:

31600.000 pounds

Cubic Measure:

8640.000 cubic inches

Core Construction:

Fiber

Prefabrication Form:

Preformed

Special Features:

Includes open type wire rope socket and whipping on winch end; 5/8 in)6x37(hemp core preformed grease impregnated

Material:

Steel improved plow

Style Designator:

6 x 37

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A082a0
