Overall Length:

40.000 feet

Diameter:

0.188 inches rope

Lay Method:

Right regular outer layer

Breaking Strength:

3700.0 pounds

Core Construction:

Independent wire rope

Prefabrication Form:

Preformed

Proof Test Load:

2960.000 pounds

Material:

Steel comp 302 or steel comp 304

Material Specification:

Mil-w-83420, comp b, type 1 military specification all material responses

Style Designator:

7 x 19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0

Mil-std (military Standard):

Mil-w-83420 spec.
