Overall Length:

1.000 feet

Diameter:

0.062 inches rope

Lay Method:

Right regular all layers

End Type:

Plain both ends

Loop Retention Method:

Swage

Core Construction:

Wire

Prefabrication Form:

Preformed

End Conditioning Method:

Shear cut

Proof Test Load:

150.000 pounds

Special Features:

0.085 in. Diameter after stand covering

Material:

Steel wire rope

Material Specification:

Mil-w-83420/3 military specification single material response wire rope

Surface Treatment:

Zinc wire rope

Style Designator:

7 x 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A082a0

Mil-std (military Standard):

Mil-w-83420 spec.
