Overall Length:

204.0 feet

Diameter:

0.625 inches strand

End Application:

Hlv (heavy logistics vehicle wheeled)

Lay Method:

Right regular all layers

Breaking Strength:

40000.0 pounds

Product Name:

Assembly, rope, wire, cargo, hlw

Special Features:

Test data document is csa g4 and rr-w-410d; end type is first end: 0.625 inch open swage socket including 1.250 inches inside diameter pin (crosby group part no's 10-83188 and s-501-5/8; second end: fused ends of strand to prevent unravelling and clean to cable diameter

Supplementary Features:

Construction: 6x26 warrington seale; finish: ungalvanized

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A082a0
