Overall Length:

60.000 feet

Diameter:

0.375 inches rope

End Application:

Crane, electro hydraulic, 3810-01-465-3334 aboard 110 ft wpb coast guard vessels

Lay Method:

Right regular all layers

Breaking Strength:

15000.0 pounds

Core Construction:

Wire

Special Features:

Wire rope has crosby closed swage socket stock no. 1039361 (or equal on one end, other end plain; wire rope assembly to be certified; wire rope shall be pressure lubricated entire length with kirkpatrick group "dynagard e" (tm) with particular attention to wire at swage end; 6 x 37 classification, iwrc, with osha pull test certificate to 40% of wire breaking strength

Material:

Steel extra improved plow

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
