**Overall Length:**

367.0 meters

**Diameter:**

34.0 millimeters rope

**End Application:**

Slewing stern ramp system 21-09838

**Special Features:**

Lifting wire assembly conforms to abs class rules; consists of construction formed wire with a plastic core assembled to hd socket; to be used in pairs-so exact finished length is critical

**Material:**

Plastic core

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A082a0
