Overall Length:

367.0 meters

Diameter:

34.0 millimeters rope

End Application:

Slewing stern ramp system 21-09838

Special Features:

Lifting wire assembly conforms to abs class rules; consists of construction formed wire with a plastic core assembled to hd socket; to be used in pairs-so exact finished length is critical

Material:

Plastic core

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
