Overall Length:

153.000 feet

Diameter:

0.437 inches rope

End Application:

Crane assembly, fldg boom fb30-27

Lay Method:

Right regular all layers

Attachment Style:

Open socket first end

Breaking Strength:

22400.0 pounds

Core Construction:

Independent wire rope

Prefabrication Form:

Preformed

End Conditioning Method:

Seized

Product Name:

Inavy-rope assembly, wire

Special Features:

First end open spelter scket other end siezed

Material:

Steel wire rope

Style Designator:

19 x 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
