Overall Length:

1.000 feet

End Application:

Mk660mod2, ate n associated tools; fixture, exploder cable pull test

End Type:

Terminal attachment second end

Core Construction:

Independent wire rope

Prefabrication Form:

Preformed

Product Name:

Wire rope assembly

Special Features:

Ring on left end and crimp contact on right end

Material:

Stainless steel wire rope

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A082a0
