Overall Length:

3.333 feet

Lay Method:

Right regular all layers

End Type:

Loop both ends

Breaking Strength:

5400.0 pounds

Core Construction:

Independent wire rope

Product Name:

A mk 2 acoustic device assembly / non-magnetic

Special Features:

Both ends have a 1/4" thimble and a 1/4" oval sleeve; sleeve is copper with zinc plating; thimble is galvanized steel

Material:

Stainless steel wire rope

Style Designator:

7 x 19

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
