Overall Length:

600.000 feet

Diameter:

0.218 inches stock

Breaking Strength:

2800.0 pounds

Safe Operating Load Rating:

700.0 pounds

Special Features:

This is a commercial low strength, grade 3, proof coil chain which is not recommended for overhead lifting purposes; recommended for tie-down and tow applications; inside length 0.95 inches, inside width 0.40, diameter 0.218

Material:

Steel

Material Specification:

Low carbon steel 1005-1010 mfr ref single material response

Surface Treatment:

Zinc

Surface Treatment Specification:

Galvanized mfr ref single treatment response

Style Designator:

Proof coil

Specification Data:

76301-9-703 manufacturers standard

Specification Or Standard:

Galvanized finish and 3/16 (trade size) size and 7200 inches (600. Feet) length

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A082a0
