Fabrication Method:

Braided

Environmental Protection:

Water repellent

Impregnation Material:

Compound, water repellent

Rope Style:

Double loop

Breaking Strength:

2750.0 pounds

Core Yarn Quantity:

8

First Inner Perimeter:

Between 5.000 inches and 7.000 inches

Second Inner Perimeter:

Between 5.000 inches and 7.000 inches

Circumference:

3.141 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A15300
